

ProTeus IV

The CMMS Technology Leader

Custom Report Design

Custom Report Design is a popular service offered by Eagle Technology. Although ProTeus includes more than 100 of the most commonly requested reports and graphs, sometimes the data displayed on these "canned" reports does not meet your exact needs.

Our experienced reports designers will custom create a report or graph to your exact specifications. The data you need to see will be in the format you need to see it!

Features

- It's easy to order a Customized Report or Graph!
 - 1) Contact an Eagle Report Technician.
 - 2) Explain which fields you'd like to include on your report or graph.
 - 3) E-mail your artwork (logo, etc.) to Eagle.
 - 4) Within days you'll have your new report or graph, which will be accessible directly from ProTeus.

Include information from any field or module in ProTeus. In fact, you can also bring in information from other programs, including accounting or purchasing programs.

You can also add any of the following to your report: your company logo, header, tagline, a photo or graphic.
