

ProTeus IV

The CMMS Technology Leader

Training Options

ProTeus training is available on-site, online, or in-house.

In-House Training

Eagle offers monthly ProTeus training classes at our facility in Mequon, Wisconsin. These 3-5 day training sessions include classroom instruction plus hands-on activities to teach you how to best use the features and functions of ProTeus.

Online Training

Don't like to travel? Can't get away from work? Try Internet-Based Training! Online ProTeus Training allows customers to learn from the comfort of their own desk. In only 5 days (3-hour sessions per day), you'll cover the same topics that students who attend our classroom sessions receive.

On-Site Training

On-site training is a customized option to learning ProTeus. The individualized instruction you will receive with on-site training allows you to work in your own facility, and learn at your own pace. Our instructors can provide one-on-one training, or hold structured classes for your entire maintenance staff. It's up to you!

Features

- ProTeus training delivers focused, highly productive learning experiences for new and veteran ProTeus users.
- Visit our web site for training dates, syllabus or to register on-line.
